Intelligent Outdoor Integrated Cabinets Solution

COMPANY PROFILE

Founded in 1993, Shenzhen KSTAR Science & Technology Co., Ltd (Stock Code: 002518) is a National Torch Plan Key High-tech Enterprise, and also a pioneer of UPS industrial and a total solution provider for Data Center Critical Infrastructure & Photovoltaic Inverter Systems in Mainland China. KSTAR is fully committed to the R&D and has been providing high-quality products with full service to over 90 countries and regions worldwide, leading the industrial development with innovation.

KSTAR Industrial Park at Zhongkai Hi-Tech Zone, Huizhou, China

KSTAR Industrial Park at Guanlan Fuyuan industrial Zone, Shenzhen, China

General introduction

Product Introduction

KSTAR intelligent integrated outdoor unit (IOU in abbreviation) consists of UPS, battery, fire-fighting, power panel and monitor unit, it reserves available space for IT equipment. IOU has the features that it includes power redundancy, constant cooling, Li - ion battery design, this increases the reliability of IT equipment.

Application

Application	Installation environment	Convenient maintenance
IOU can be used in the cell station of the remote area.	Outdoor installation, waterproof, dustproof, heat - resistant,steal-preventive.	High reliable power supply, long backup time, maintenance free, integrated monitor.

Product features

◎ Transformer-less UPS and transformer-based UPS are optional

- Rack-mounted 3KVA/6KVA transformer-less/ transformer -based UPS, the UPS can work in parallel and realize 1+1.
- Wide input voltage range and frequency, it can ensure the stable running of the generator.
- Transformer-based UPS is with the features that it can anti-impulse current, and it also contain output isolation transformer inside ,that can increase the reliability and safety of power supply.

6KVA rack mounted transformer-less UPS

3KVA rack mounted transformer-based UPS

6KVA rack mounted transformer-based UPS

Outdoor battery cabinet

Patent anti-leakage tray

Optional BMS

KSTAR Li – ion battery solution, it adopt KSTAR Li – ion battery cabinet, it's with the below features:

- High power density(Light weight and small dimension)
- Heat - resistant(Working temperature can be up to 45°C)
- Long life, environment friendly (cycle life of cell of Lithium iron phosphate is from 2000-6000, it's 4 to 5 times of lead acid battery)
- It includes self-developed battery management system(BMS), it' s with good compatibility and make the product more reliable.
- Maintenance free(Reduce the maintenance cost);
- Environment friendly and don't contain polluted metal such as lead.

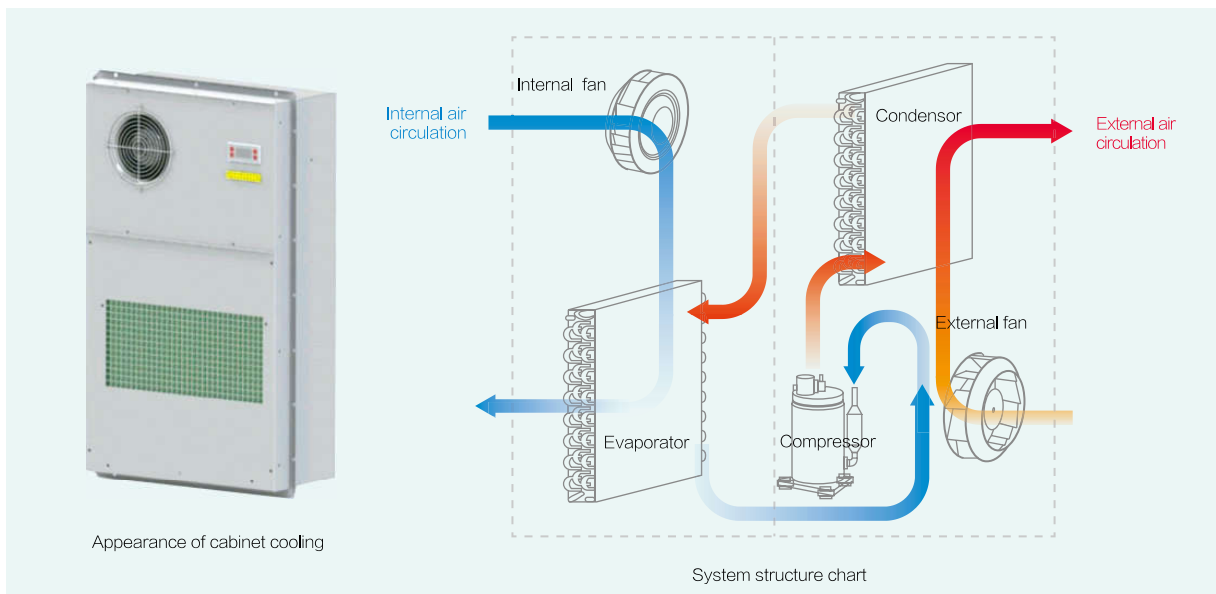

Rack mounted lithium battery pack

lithium battery /pack

Product introduction

◎ Cabinet cooling

- It's embedded in the door of IOU, it don't occupy the available space, and increase the available space for IT equipment.
- Single cabinet can be equipped with 1 or 2 air conditioner, the 2 air conditioner work as 1+1 redundancy, if one fails, the other can still work instead of the fault one immediately .
- AC/DC frequency conversion types air conditioners are optional. For 48Vdc frequency conversion type, low start current, and it is feed by UPS and will not affect by public grid.
- Working temperature range:-40~55℃ , wide temperature range for working.

◎ Rack mounted fire fighting

- It is special for data center, it's with FM200 suppression gas inside.
- Integrated with fire detection and fire extinguisher together.
- When it is working, it will release all the gas within 10 sec and put out the fire inside the cabinet immediately.
- Automatically temperature monitor, and it can set different alarm temperature.

◎ Rack mounted power panel module

- Rack mounted design;
- Customer can choose 2 paths design, one is for public grid, the other is for generator, fast connector for generator.
- Schneider brand breakers are standard equipment in the power panel module.
- C level surge protection for main input.
- Power monitor for the main input.

◎ Intelligent monitor system

Monitor unit

- Power supply: dual power input, automatic transfer between two path when power failure.
- Large equipment access: 1 unit can integrated 50 equipment at most.
- Multi-level monitor: Multi-level integration can confirm the exactly quantity of IT equipment.
- Wifi hotspot: It support Wifi hotspot and can realized movable operation and maintenance.
- Easy to expand: reserve slot, it can expand IO port, switch card and telephone audible card.

Monitor software

- Software configuration: Customized software interface, no need to modify software code.
- Flexible : Support B/S and C/S browsing.
- Good compatibility: Compatible with the intelligent equipment from different supplier (UPS, cooling), support series port communication, SNMP, MODBUS TCP.
- Friendly communication interface: Monitor system can supply Northbound Interface free, the third part can integrate monitor system throughSNMP and Web Service.

◎ Cabinet of IOU

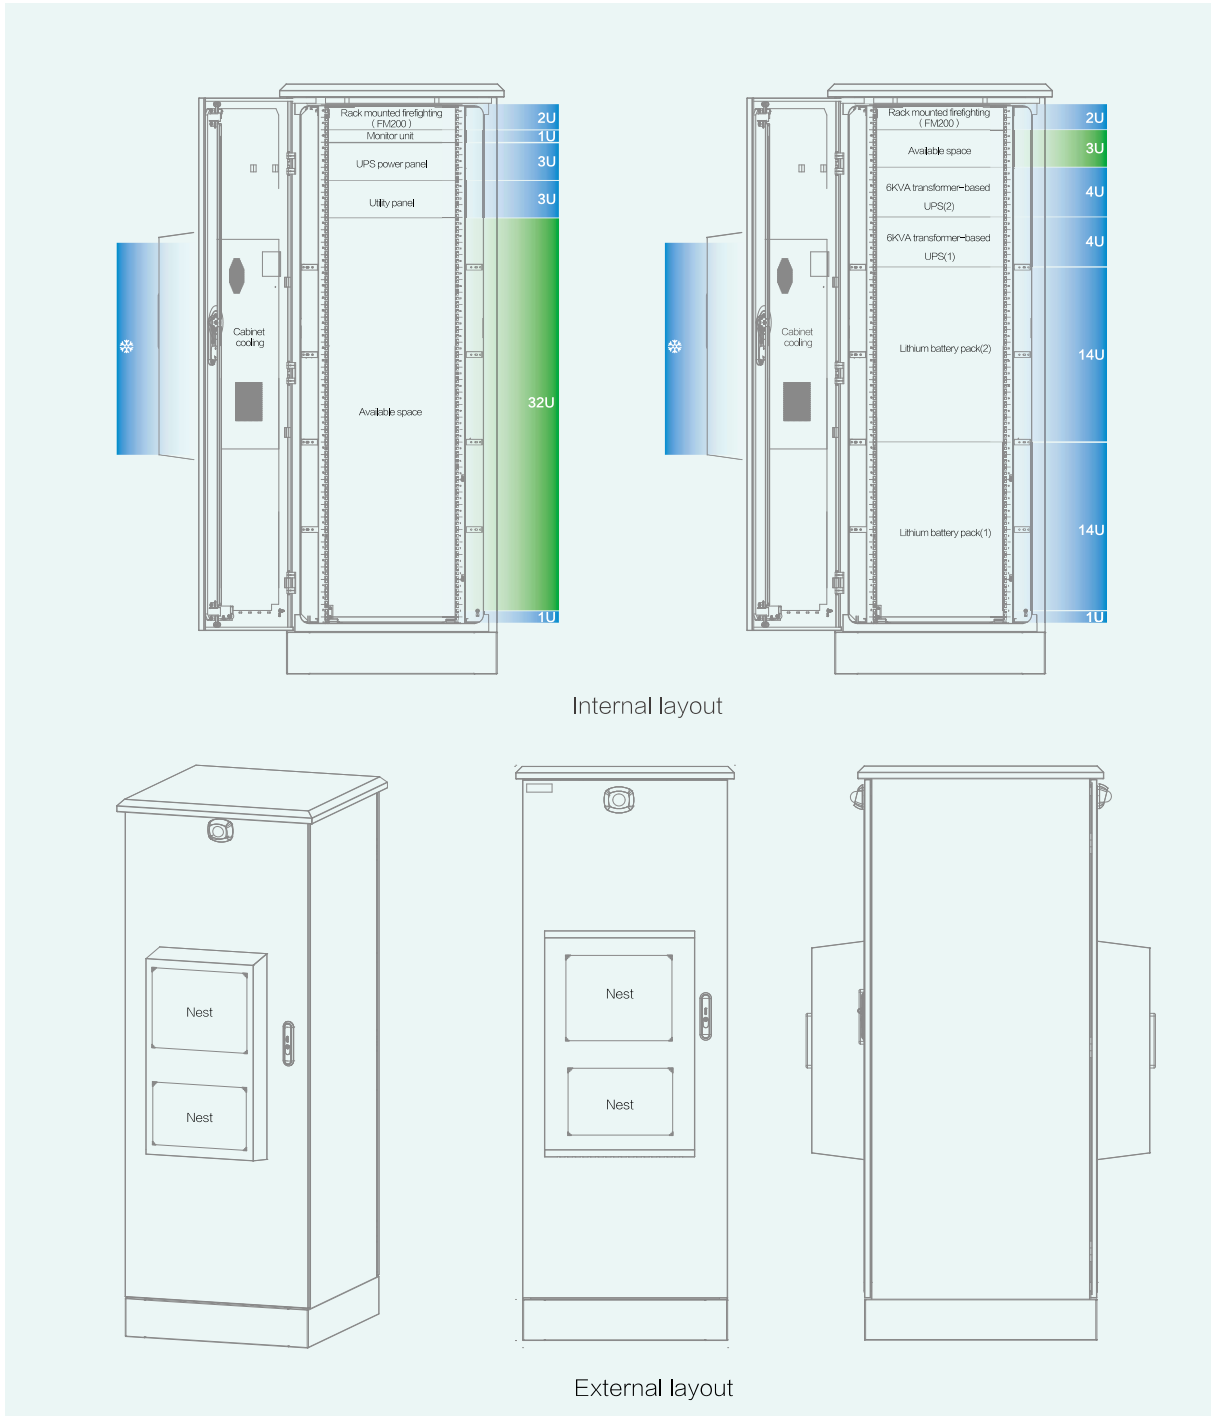

- IP55
- Sandwich panels (color steel plate + Polystyrene heat-insulating material)
- heat insulating material, the depth is 45mm.

Configuration

Configuration 1

- 6KVA transformer UPS(1+1) parallel + lithium battery

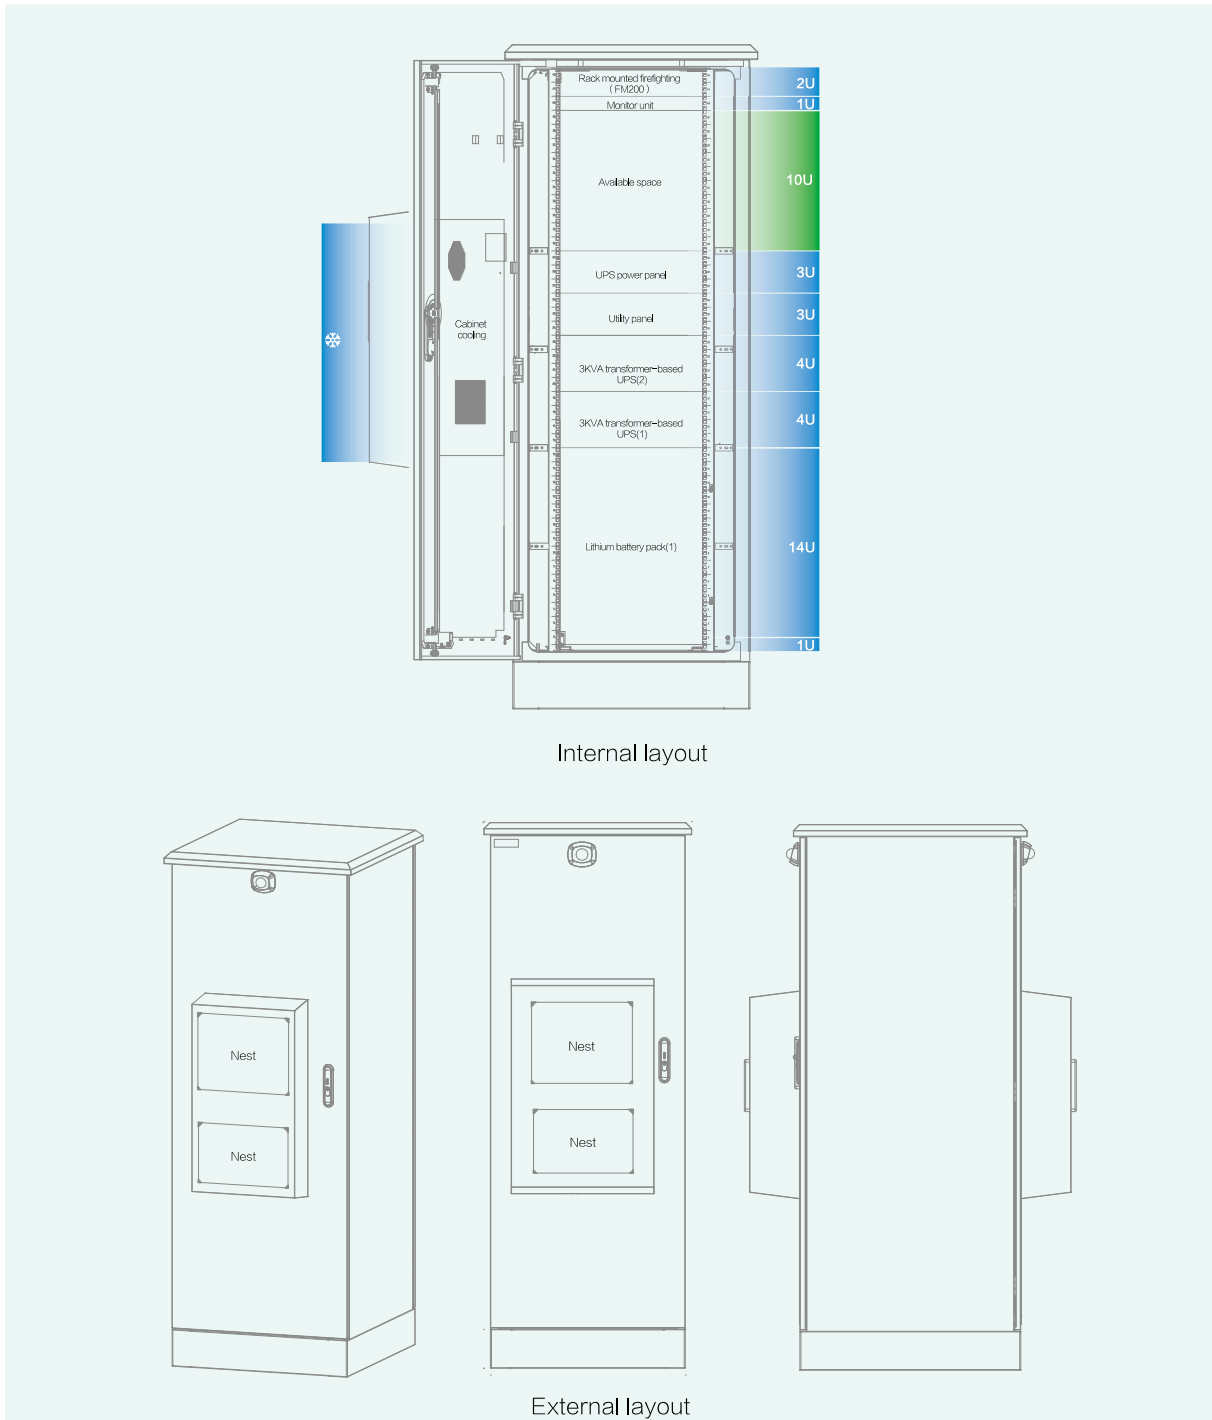

Specification

Subsystem	General introduction
General features	
Dimension (W×D×H) mm	750 × 850 × 2100
Quantity of cabinet	2
Power of single power module (kVA)	6
Reliability	Tier II or Tier II above
Installation	Deploy on flat ground
Power of single module	
6kVA	
USP system	
Input voltage range	220 or 230Vac, 50/60Hz, Single phase 3 wires (L+N+PE)
Output voltage range	220 or 230Vac
Output power factor	0.8
Rated capacity (kVA)	6, Single unit or 1+1 redundancy
Maintenance bypass	Support
Efficiency (%)	≥90
Lithium battery	192V50Ah (2group) ;3KW load, backup time 4 hours
Cooling system	
Cooling capacity (kW)	1.5 (Integrated cooling, support 1+1 redundancy)
Air flow	Front and forward return air, down and front supply air
Dimension (W×D×H) mm	479 × 200 × 783
Cooling type	Air cooling
Cabinet system	
Dimension (W×D×H) mm	750 × 850 × 2100
Available space	42U
Optional kits	Fixed plate, L type rack, heavy load plate, LED, Industrial connector(Connected with generator)
IP degree	IP55, Other IP degree can be customized
Power system	
Input voltage range	220 or 230Vac, 50/60Hz, single phase three wires (L+N+PE)
Input type	Single input/Dual input
Output branch	4 (Utility output) , 22 (UPS output) , can be customized
Surge protection	C level surge protection
Monitor system	
Alarm	SMS alarm, E-mail alarm, Audible and visual alarm (Optional) etc
Interface	Web browse, APP, Wechat public account
Function modules	Integrated management(UPS/Cooling/Power panel/ battery etc.), access control management, video management, alarm management. Environment management(TH, smoking sensor, water leakage detection)
Fire fighting	
Fire fighting module	FM200-J

Configuration

Configuration 2

- 3KVA transformer UPS(1+1) parallel + lithium battery

Specification

Subsystem	General introduction
General features	
Dimension (W×D×H) mm	750×850×2100
Quantity of cabinet	1
Power of single power module (kVA)	3
Reliability	Tier II or Tier II above
Installation	Deploy on flat ground
Power of single module	
3kVA	
USP system	
Input voltage range	220 or 230Vac, 50/60Hz, Single phase 3 wires (L+N+PE)
Output voltage range	220 or 230Vac
Output power factor	0.8
Rated capacity (kVA)	3, Single unit or 1+1 redundancy
Maintenance bypass	Support
Efficiency (%)	≥90
Lithium battery	192V50Ah; 2KW load, backup time 4 hours
Cooling system	
Cooling capacity (kW)	1.5 (Integrated cooling, support 1+1 redundancy)
Air flow	Front and forward return air, down and front supply air
Dimension (W×D×H) mm	479×200×783
Cooling type	Air cooling
Cabinet system	
Dimension (W×D×H) mm	750×850×2100
Available space	42U
Optional kits	Fixed plate, L type rack, heavy load plate, LED, Industrial connector(Connected with generator)
IP degree	IP55, Other IP degree can be customized
Power system	
Input voltage range	220 or 230Vac, 50/60Hz, single phase three wires (L+N+PE)
Input type	Single input/Dual input
Output branch	4 (Utility output) , 22 (UPS output) , can be customized
Surge protection	C level surge protection
Monitor system	
Alarm	SMS alarm, E-mail alarm, Audible and visual alarm (Optional) etc
Interface	Web browse, APP, Wechat public account
Function modules	Integrated management(UPS/Cooling/Power panel/ battery etc.), access control management, video management, alarm management. Environment management(TH, smoking sensor, water leakage detection)
Fire fighting	
Fire fighting module	FM200-J

Configuration

Configuration 3

- 6KVA transformer-less UPS(1+1) parallel + lithium battery

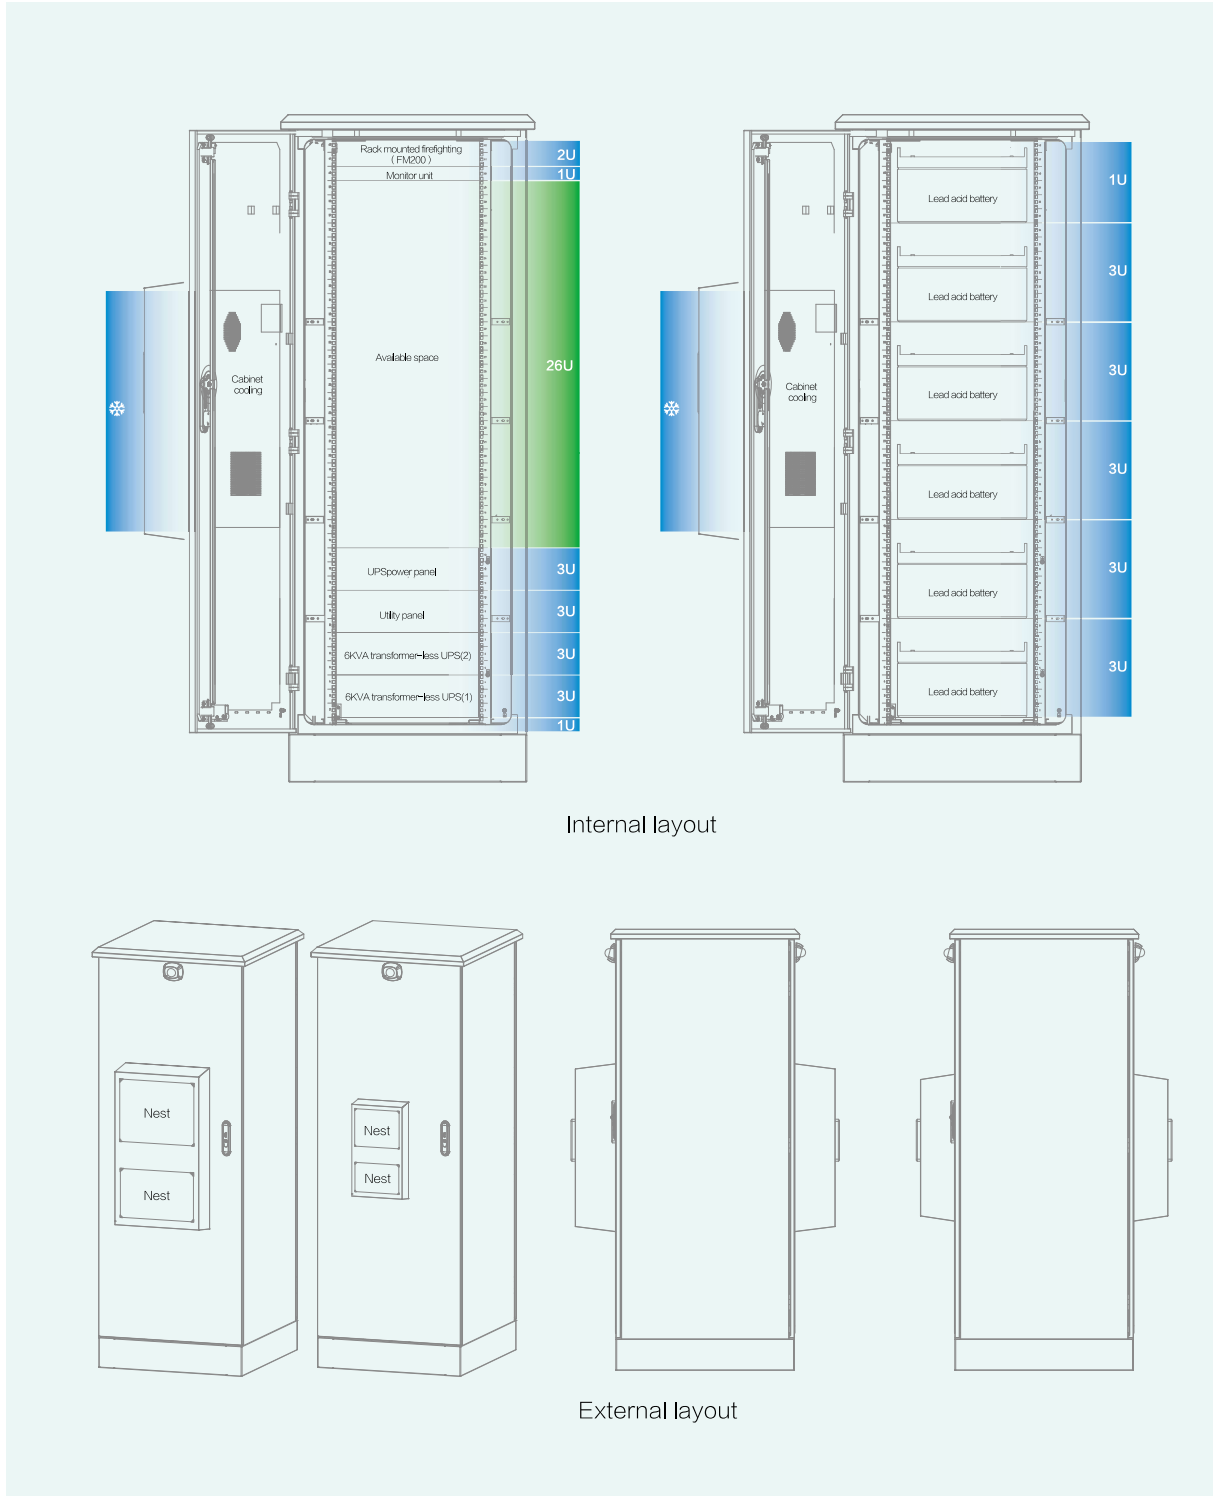

Specification

Subsystem	General introduction
General features	
Dimension (W × D × H) mm	750 × 850 × 2100
Quantity of cabinet	2
Power of single power module (kVA)	6
